

A COMPLETE FAMILY OF FIRE SUPPRESSION SYSTEMS
SOLUTION FOR MINING & MOBILE EQUIPMENTS

FIRE SUPPRESSION SYSTEMS

Cylinder Valve LOP

- Solid brass valve, chrome plated for additional corrosion resistance

Manual Actuator

- For manual actuation, available in two size for internal and external vehicle mounting

Cylinder Bracket

- Heavy duty cylinder brackets
- Protect and hold cylinder fire in static mode

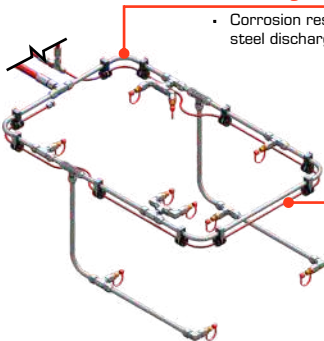

Foam Cylinder Assembly

- 3 cylinder size : 85L, 50L, 35L
- Stainless steel construction
- Heavy duty cylinder

Discharge Line

- Corrosion resistant stainless steel discharge line

Fire Panel Alarm

- Monitoring the status of the system and provide audible and visual indication

Detection Line

- As Heat detector for automatic activation, which is active along its entire length. Melts when heated to in excess of 130°C - 150°C
